

Innovative Internet Service Launched to Search for Luxury High Rise Condos for Sale by Floor and Associated Views or Videos

Luxury Realty Group's new Internet service allows prospective buyers to search for condos available for sale by floor in a luxury Las Vegas high rise. It also provides view images and videos specifically for that floor and by a specific condo.

Las Vegas, NV ([PRWeb](#)) November 6, 2007 -- Another innovative Internet based service designed specifically for prospective buyers of Las Vegas luxury high rise condos or hotel condos is being launched today by [Luxury Realty Group, Inc.](#) This new Internet service goes beyond the services launched last year to search by specific floor plan type for available [Las Vegas luxury condos](#) for sale. The new service allows prospective buyers to search for condos available for sale by floor in a luxury high rise. It also provides view images and videos specifically for that floor and by a specific condo.

Luxury Realty Group was the first luxury real estate brokerage in Las Vegas to implement interactive maps for Summerlin homes and luxury high rise condos in 2003. In 2006, the ability to search for condos and hotel condos for sale by a specific floor plan was added. In late 2006, the ability to view Las Vegas luxury condos for sale in 15 languages was implemented.

"With this new Search a High Rise by Floor Feature, Luxury Realty Group has taken a huge leap forward in innovation to serve its growing global client base," says Bruce Hiatt, Broker and co-owner of Luxury Realty Group, Inc. "Prospective buyers can now search by a specific floor level to see which luxury condos and hotel condos are for sale. In addition, the buyers can see views and videos in the extensive image library being built just for that floor. This new service is the most advanced we've seen by any luxury real estate brokerage and continues to demonstrate our level of ongoing innovation to better serve our global Las Vegas luxury real estate market," Hiatt observed.
